ARTHUR COUTY

Dies at Nickerson, Kans.
Funeral Held Here
Yesterday Afternoon
From Cloverport
Hotel.

The remains of Arthur Couty, who died Saturday in Nickerson, Kans., reached here yesterday morning on the five o'clock train. The body will be accompanied by Mr. and Mrs. Jas. Couty, parents of the deceased, and Mr. Joe Couty and sons, Joe and Will Couty, of Owensboro.

The funeral was held yesterday afternoon from the Cloverport Hotel, the services were conducted by Rev. Dillon, and the interment took place in the Cloverport Cemetery.

Mr. Couty was quite a young man, but had been an invalid six years. His death was quite a relief to him. He was twenty-two years of age and moved away from here eight years ago. Rheumatism was the cause of his death. Mr. Couty was a member of the Nickerson Methodist church. In Cloverport there are quite a number of young people who were his playmates and regret his death. Mr. Couty loved Cloverport and it was his request to be buried here.

MRS. GARDNER

**Dies At The Ripe Old Age
Of Ninety-Three Years
At Her Home In
Hardsburg.**

Hardsburg, Jan. 31.—(Special)—

Mrs. R. G. Gardner fell asleep January the thirtieth at fifteen minutes after 2 P.M. She was ninety-three years of age.

Mrs. Gardner and her beloved husband came to Hardsburg sixty years ago. They conducted a boarding school until after the close of the Civil War. For three weeks Mrs. Gardner had been very ill and her suffering had been intense. Expressions of deepest faith would be uttered even when the pain was almost unendurable. Her son, Dr. T. W. Gardner, Supt. of the Western Lunatic Asylum, was with her at the time of her death, also her son, Mr. R. G. Gardner, of this place. Dr. Charles Gardner, of Grand Tower, Ill., came to the funeral. Dr. Will, of Colorado Springs, Col., was unable to present.

A very strong character has passed from our midst. Mrs. Gardner's most active interest was the work of the Woman's Home Missionary Society of which she was president for thirty years. She was a cripple for eight years and occupied most of her time to reading. Her mind was very active and her conversation characterized by broad charity, sweetness of spirit as well as extensive reading. Her sons may well call her blessed as they consider her life of good works.

Critically Ill At

BABBAGE-STONE

Prominent Young People Marry
In Jeffersonville Wednesday
Evening.

Cupid surprised many friends Wednesday evening when Miss Mary Elizabeth Babbage and Mr. Harvey R. Stone were married in Jeffersonville. The bride is the daughter of Mr. and Mrs. Courtneay Babbage of Louisville, and has many relatives in this city. Mr. Stone is the son of Mr. J. E. Stone, who has a nice farm near this place. He is a brother of Mrs. Louis Hinckle. The marriage was quite a surprise to some of the friends of the young couple, but there were quite a number who had an inside track to Cupid's foot-steps. They had been sweethearts for a year or more. Mrs. Stone has been visiting her cousin, Mrs. Chas. Kiel, other relatives and friends here since Christmas. Wednesday she and Mr. Stone left on the morning train for Louisville. Before leaving it is said, that Mr. Stone bought nearly all the fruit and candy in town to take to Mr. and Mrs. Babbage to buy their consent. Mrs. Stone is just eighteen years of age, and is a hand-some young girl.

Mr. Fallow, Railroad St., Cloverport, Ky., says: I can say that Doan's Kidney Pills live up to the claim made for them. My kidney troubles were disregarded for twelve years. My back ached severely and when I stooped or lifted, sharp twinges darted through my loins, causing me to suffer intensely. When I first arose in the morning I was lame and sore and the slightest work exhausted me. I was also languid and at times felt very nervous. Headaches and dizzy spells were added to my affliction and too frequent passages of the kidney secretions caused me great annoyance, particularly at night when I was forced to rise from bed to six times. I used a small box of Doan's Kidney Pills procured at Fisher's Drug Store and received almost entire relief. I intend to continue with them and have no doubt that I will soon be entirely cured."

For sale by all dealers. Price 25 cents.

The sport of deerstalking is still the most natural and most nearly allied to the hunting of primitive man that is to be found in the British Islands. The difference between the actual hunting of the hungry Plet and the stalking of the owner of a modern deer forest is little more than the weapon.—Field.

ON GAME TRAILS WITH ROOSEVELT

Habits of the Buffalo, Deemed by Many Hunters as Africa's Most Dangerous Beast, Described by Former President.

In the February Scribner's former President Theodore Roosevelt in his article on "African Game Trails" describes as follows the habits of the buffalo he saw during a hunt in which he participated while a guest at Mr. Healeys' ranch, lying between the Rweru and Kamiti rivers:

"As I have said before, the buffalo is by many hunters esteemed the most dangerous of African game animals, with its great power of attack, with in this country a coat of black hair which becomes thin in the oil belt, and massive horns which the huge bosses at the base, these bosses sometimes measuring in old age so much as two feet across, project from the forehead in front of the horn. Their habits vary much in different places. Where they are much persecuted they lie in the dense cover and only venture out into the open to feed at night. But here, though he himself had killed a

Stalking the Quarry.

How a veteran hunter named Cuthbert led the hunting party toward the buffalo and a scene exciting as well as critical lay in front of the hunters in the dried winter cover described in the same article by Mr. Roosevelt, who says:

"We crept up the water course until about opposite the buffalo, which were now lying down, and were covered completely at them; save there were two or three and then led us on all fours toward them. There were patches where the grass was short and other places where it was three feet high, and after some careful caution, we had covered half the distance toward them when one of them made us out and several ran from their beds. They were still at least 200 yards off, a long range for heavy rifles, but my closer approach was impossible, and we fired. The lead-

Grazing Habits of the Buffalo.

"The first day we were on Healeys' farm we saw the buffalo, to the number of seventy or eighty, grazing in the open some hundreds of yards from the river. They were scattered in small groups, and the ground was covered with tall grass and brushwood.

"Probably when the moon was full the buffalo came out to graze by night. But while we were on our hunt the moon was young, and the buffalo did not seem to move about at night. They grazed and came out to graze by day. Sometimes they came out in the early morning, sometimes in the late evening, but quite as often in the bright sunlight.

"We saw herds come out to graze at 10 o'clock in the morning and again at 3 in the afternoon. They

"DROME" OUR NEWEST WORD

Professor Bell Declares That's the Way to Say a Man Flies.

Professor Alexander Graham Bell, the inventor, has coined a new word, "In Canada," he said, "we speak of a man 'droming' from one point to another."

"The word aerodrome originated with a professor of Greek at Johns Hopkins university, and it means air runner."

"We call our machines 'dromes'—such simple words as 'motor car' too, which aeroplane is the most correct term, occurs in the aerodrome of today make 'aeroplane' a misnomer. I think we shall all come to calling them 'dromes'."

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has been known that it is not uncommon for a child to be born with weak kidneys.

child minutes too often, if the urine scalds the flesh, or if, when the child resches an acre when it would be able to control the pain. In women, kidney trouble depends upon it, the cause of the difficulty is kidney trouble, and the first step should be to get rid of the trouble. This is the principal organ. The unpleasant trouble is due to a diseased condition of the kidneys and bladder, and not to a habit as most people suppose.

There are many made miserable with kidney and bladder trouble, and both need the same great remedy. The cure and immediate effect of swamp-root is soon realized. It is sold by druggists, at a dollar a pound, and one-half cent a dollar.

Yesterdays Swamp-Root, \$1.00 a pound, makes many thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer, the author of the book, mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MALE MUFF WEARER.

Says Women Are His Sex, So He Has Right to Their Apparel.

Scandal and artistic St. Louis is in a hubbub, and all on account of a huge astrakhan muff.

The reason is that the muff made its appearance in the foyer of the Odson theater the other night, clutched by the distinguished fingers of McNair Lightfoot, society man, genius and eccentric, the grandson of the first governor of Missouri, from whom he got his name.

In refuting the charge of effeminacy Mr. Lightfoot says that "in these days of militant and manly women we poor men, who are gradually being robbed of all our distinctive attributes and claim to superiority as the stronger sex, have the perfect right to indulge the weakness, and if we exercise a few feminine comforts and privileges surely no one can complain."

Cleveland's Thirty Cent Egg Club. Franklin D. Roosevelt, lawyer of Cleveland, O., recently began circulating pledges for membership in a "thirty cent egg club." He declares that 30 cents is the natural price for eggs and insists that the price can be kept at that figure if Clevelanders refuse to pay more. He asserts that eggs are rushed into cold storage whenever the supply threatens to cut prices.

Children Cry FOR FLETCHER'S CASTORIA HIS LARYNX FOR SCIENCE.

Outdoor Vocalist Also Willed His Lungs to Medical College.

Albert Murphy of Chicago, known as an outdoor singer, received a letter from Dr. Fletcher's Castoria asking him for a voice on his larynx and lungs. The letter was from Dr. James H. Blair of the Bennett Medical college of Chicago. The letter was alluring enough to induce Murphy to go to Chicago.

He died and practically concluded terms when his family intervened, and to get time to reconsider he returned to Detroit.

Dr. Blair followed him to that city, raised his price, and Murphy sold his larynx and lungs to the medical college for the benefit of science after his death.

The man was saved because Murphy was once apparently in the last stages of consumption and was cured by outdoor singing. He formerly sang only in halls. Dr. Blair advising the change. Murphy has put a clause in his will leaving the organs to the college.

President Helps Orphans.

Hundreds of orphans have been helped by the President of the Industrial and Orphan's Home at Mason, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth."

It invigorates all vital organs, purifies the blood, aids digestion creates appetite. To strengthen and build up pale, thin, weak children or rambunctious people it has no equal. Best for female complaints. Only 50¢, at Severs Drug store.

Its Troubles.

The family skeleton complained.

"I wouldn't mind being exhibited once in awhile," said the skeleton, articulating with difficulty through its teeth, "but that's not so frequently in the picture room where the air is always notoriously bad."

But whosoever thinks of looking at such exhibitions from the family skeleton's point of view?—Chicago Tribune.

For any pain, from top to toe, from any cause, apply Dr. Thomas' Electric oil. Pain can't stay where it is used.

"WHY I DO NOT GO TO CHURCH"

As Told By Cloverport People.

The following answers have been gathered from Cloverport people in answer to the question, "Why do you not come to church?"

The men truthfully said; each one as follows:

"I do not know."

"That church is too warm, it is not ventilated."

"The church is going to the bad. Give shows and then preach against them. I would rather go out in the street and work for the money to give to a church than to contradict my religion."

"I would rather stay at home and read a good book."

"I have to get up so early in the morning and I am tired when I get home at night."

"There are so many using the church to cover up their meanness."

"I can't get cleaned up in time."

"I can't hear. I don't do me any good. That's a right good talker though. Maybe I will go. I have got nothing to hinder me."

"I have to work every evening."

"What must I go for? I don't play cards nor dance."

"I have very urgent correspondence that I have to attend to every night."

"Church, I haven't been on that side of the creek at night but once since the fire."

The woman said, each one as follows:

"I have to stay home with the baby."

"I don't like the way that man preaches."

"I haven't anyone to go with."

"I get tired of hearing the preachers preach to women. They act like women are the only ones who ever commit any sins. They say very little about gambling places, dirty tricks of men in elections and business."

"I am not through washing dishes when church begins."

"I have not been outside my house but once in three months, and that was across the street."

"I have to work every evening."

"I have to go for? I don't play cards nor dance."

"I have to stay at night."

"Oh, I have so much to do, I can't go."

"I have gotten out of the habit."

"I haven't anyone to urge me to go."

"I just don't go. I think church going comes with age."

"WHY I DO GO TO CHURCH"

By a Church Member

Why do I go to church? To see some one? to meet some one? because some one else goes? to set an example? to save my soul? probably? because I have nothing else to do? because it is my duty? because I want more spiritual knowledge? because I want to worship? We all may ask ourselves these questions, they are well worth while. In another column of the News answers to the question "Why do you not go to church?" are given and in this article are brought together some reasons given for going to church.

One thing most assuredly is that Rev. Pat Davis is a splendid evangelist and Sunday night he said he would give any man in Cloverport one hundred dollars who could beat him preaching. Rev. Davis declares that he did not bring a meeting to Cloverport in his vest pocket, but that the good he has done or might do has been brought through the High Power. But surely he must be to blame for some things that have taken place in the meeting, the children's choir for instance. It is a wonderful little body of singers and there is hardly a child in town who is not wearing a badge given by Brother

Rev. and Mrs. Dillon have thrown their whole hearts into the meeting, as have many other Christians. Mrs. Dillon is an ideal Christian worker. Many have manifested interest at every service and the revival has already been a great benefit to all the denominations. Mr. Chas. Lightfoot said Sunday evening the meeting had been a help to the whole town.

If you haven't been, go. The afternoon services open at two o'clock and the evening services at 7 o'clock sharp.

And "the grown folks choir" is getting big too. The members of the church choir have been faithful in their services and gotten others to help them with the singing. It seems good to hear those who have rich talents using them together. Miss Margaret Ulmer has charge of the organ and Miss Lula Severs plays the piano. Misses Eva and Eliza May, Miss Georgia White, Mrs. Rowland, Mr. A. H. Murray and Dr. Simons are nearly always on hands to lead the singing. The Leaguers come in when ever they are needed and are most willing to do their part when they are wanted.

PERUNA EDITORIAL NO. I.

Dr. Hartman is now offering Peruna to the public as a regular pharmaceutical product. It is just as ethical as any compound put up for the medical profession. No straining of medical ethics can find any fault with it. THE PRINCIPAL ACTIVE INGREDIENTS are prominently incorporated in the label on the bottle, that the people may know that the claims made for Peruna have a basis in fact.

The only departure we shall make from medical ethics in the conduct of Peruna affairs in the future, is the fact that we shall continue to advertise and sell our product TO THE PEOPLE.

If we would agree to sell to doctors only, to advertise for doctors only, then the medical fraternity would be obliged to recognize Peruna as being entirely within their approval.

BUT WE SHALL NOT DO THIS.

We shall continue to offer Peruna to the people. We shall continue to convey to the people our claims for Peruna as a household remedy. We shall continue to supply the people with free literature, teaching them how to use our medicine, teaching them how to avoid disease, teaching them many things of benefit to the home. We shall continue to do this, whether the medical profession like it or not.

We are proposing from this time on to take the public into our confidence. Notwithstanding that some imitators and substitutes will be attempting to put up something which they consider just as good as Peruna, we are going to draw aside the veil of secrecy and allow any one who chooses to know exactly OF WHAT PERUNA IS COMPOSED.

This ought to disarm all honest criticism. We expect, however, that criticism will continue. On some pretext or other those who are envious of the success of Peruna will continue to find fault. But we are determined to give such people no just complaint.

PERUNA IS A GREAT MEDICINE. It has become a household word in millions of homes. Our faith in the remedy is stronger than ever. Every year we expect to cover new fields

in foreign lands until the people of all the world are supplied with this valuable household remedy.

WE CLAIM PERUNA BE TO CATARACT REMEDY. Buy a bottle and try it. If it helps you, be honest and acknowledge it that it has helped you.

If you want us to will publish your statement exactly as you furnish it to us. We will add no words, take away no words. If you wish us to will publish your portrait in connection with it. We will not do this without your written request, without your entire consent.

Peruna has benefited thousands of people afflicted with chronic cataract, in many places throughout the country. At least, that is what the people say to us, through the solicited testimonials. Many thousand more will reap benefit from Peruna in spite of fabricated slanders to the contrary.

WE GUARANTEE EVERY BOTTLE OF PERUNA TO CONTAIN THE INGREDIENTS PRINTED ON THE LABEL.

We have taken great pains that every testimonial we use should be absolutely true, in the exact language of the testifier.

We have taken great pains that every photograph published should be the photograph of the person whose name it bears, that every word of every testimonial should be authorized by the hand that signed it.

We are determined to beat our opponents by being fairer than they are, by doing square than they dare to. We are determined to meet falsehood with truth, simplicity with candor, innateness with sincerity.

We know that the users of Peruna will appreciate our stand. We believe that the dealers in Peruna will applaud our course. We expect even our opponents will be obliged to acknowledge finally that Peruna is not only an honest and useful remedy, but one of the GREATEST HOUSEHOLD MEDICINES ON THE CONTINENT.

In their waging such a hard fight against high prices of meat, etc. The farmers are the producing element of this glorious country of ours and it does not seem fair to me to boycott their whole production and allow the manufacturers, traders and grocers to go unopposed.

It does not seem fair that they should be permitted to charge the outrageous and unnatural prices for everything that they manufacture and produce which the farmers of this country we almost compelled to buy from them in order to be able to procure the very meat and bread that the people are now trying to buy.

For Pain in Chest

For sore throat, sharp pain in lungs, tightness across the chest, hoarseness or cough, lave the parts with Sloan's Liniment. You don't need to rub, just lay it on lightly. It penetrates instantly to the seat of the trouble, relieves congestion and stops the pain.

Here's the Proof.
Mr. A. W. Price, Fredonia, Kane, says we have used Sloan's Liniment for many years, it is excellent for sore throat, chest pains, colds, and hay fever attacks. A few drops taken on sugar stops coughing and sneezing instantly."

Sloan's Liniment

is easier to use than porous plasters, acts quicker and does more for the pores of the skin.

It is an excellent symptomatic remedy for asthma, bronchitis, and all inflammatory diseases of the throat and chest; will break up the deadly mucus in the lungs, and will kill any kind of neuralgia or rheumatic pains.

All druggists keep
Sloan's Liniment.
Price 25c., 50c., & \$1.00.

Hints for Farmers

A Place For Everything.

Recently I stepped into a farmer's barn and looked about, writes a correspondent of Farm and Fireside. The harness was thrown on the nail floor in a promiscuous heap. The saddles were over in a corner, and I noticed the mire had been working on them. A currycomb and brush and three horse blankets lay near by. The half-way seemed to be a general "catch-all." I even noticed a pitchfork and saw lying about, and several hoppers were stored across the door.

The owner of all this material was as slovenly with his farming as with his barn. There was no air of prosperity about his place.

A short time ago I was in the barn that belonged to this man's neighbor, and it showed a different view. The owner seemed to have a place for everything. In the hallway was the harness, but each set hung on its own peg. A box near the stalls contained brush and currycomb. A box containing the nail-hammer lay on the nail-mart work-shop and bench, and every tool was in its place. Horse covers and batters hung on nails in their corners, and everything had about the appearance of neatness. Needless to say, it was a prospectus up to date farmer who owned this barn. Everything about the place showed the touch of his skill and hand.

Winter Manuring.

Some farmers condemn the practice of spreading stable manure on frozen land as wasteful and extravagant. Others are equally zealous in their praise of winter manuring. This difference of opinion is based partly, but not altogether, on experience obtained under different conditions.

I believe that the opinion that this method is wasteful is usually based on prejudice only.

Matured drawn out and spread from day to day in winter, on grass lands especially, I have found beneficial. It retards the melting of the snow, prevents frost from cutting off the grass stems, until its juices are carried down to the roots, which hastens the growth of the grass. In the summer this manure protects the roots from the sun, and through increased growth of the top and the roots the humus in the soil is increased and the productivity of the soil benefited.—Cor. cannot harm the little chicks later on. Were chicken houses disinfected occasionally there would be fewer outbreaks of disease.

When killing meat animals do not neglect to save some of the scraps to feed the fowls.

Any arrangement for supplying fresh water at all times is well worth serious consideration and installation.

In charlock nature has provided a simple remedy for many of the common poultry ailments. Provide plenty of it.

There is no gift required for successful poultry raising. Plain common sense and willingness to work are the essentials.

Small potatoes and turnips saved when the crops were gathered are valuable poultry food at this time if well chopped.

The Farmer and the Incubator.

One point, and an important one, in favor of the incubator is the fact that it can be put to work early turning out chicks, and consequently the farmer can have all the March or April chicks he needs.

Mr. W. L. Douglas, of the Indianapolis Star, has written a good article on the subject in the Indianapolis Journal.

The co-operators from those

hatches will be ready for the market at a time when they will bring the best prices, which is not possible, in any considerable number at least, in the case of hen-hatched chicks for the simple reason that it is difficult to get a reasonably number of broody hens to lay in the season.

The pullets from these early hatches will begin laying early in the fall, while the hens are in molt and wheel eggs are high price, and if given proper care will keep it up all winter. Early pullets

properly cared for make the best of winter layers.

Selecting Brood Sows.

Prolificacy usually is a family characteristic, and it is wise to select a prospective brood sow from a large litter of robust pigs.

The strongest pigs of a litter most suitable for prospective sows usually nurse from the teats nearest to the front of the udder.

The prospective sow may therefore be chosen before she is taken from her dam, and the litter should be the highest possible standard of excellence.

It seems not unlikely that he

wishes to make the best of the quality he possesses for some time to come.

Plant Fruit Trees.

Plant fruit trees on the sunniest spot alone the fence lines and in the fields.

The investment is good—add both to beauty of farm and to the value of it. If we have fruit trees see where they will have sufficient drainage. Many a tree is blighted by its owner for being a bad variety when the fault is in the drainage.—Farm and Ranch.

Cows for Good Care.

Today try to keep two more cows for your farm small. Keep a few good ones and care for them well. Some times good cows and good feed may produce poor results if the management is not right.—Homestead.

GUINEA PIGS TO AID HEALTH.

Illinois Biological Laboratory Will Use Animals in Milk Tests.

One room of the soon to be established Illinois Biological laboratory is to be devoted to experiments on guinea pigs in the diagnosis of tuberculosis.

Guinea-pig tuberculin bacilli, but it is not probable the guinea pig industry will begin at once, for the manufacture of hog cholera serum will have eight of way over the diagnosis of guinea-pig.

In the ordinary and the guinea-pig will receive injections when the laboratory work gets in full swing, the former of blood from infected hogs and the latter of milk. Hog-cholera serum is obtained from the tail of a pig that has been made immune by proper infusions of diseased blood.

Does Your Back Ach?

If it does you should know that backache is generally caused by weak or diseased kidneys. A medicine called "Kidney's" has all its ingredients printed on the label so that everyone may know just what is in it. It is the great kidney and bladder medicine. It stops frequent urination. Druggist and dealers sell it for 50c.

Gov. Marion Liles White House
During the recent visit of the governors to the White House, Governor Marion of Ohio advanced to one of the other governors and said, "I want to acquire that property." In the course of his investigation he went to Paris, and his work was so well done that Attorney General Knox adopted his report after only a few days' examination. Subsequently Mr. Russell was engaged in making investigations of various charges against judges and other federal officials, especially western and territorial officers. In all his work was so well done that he was appointed assistant attorney general four years ago.

"Are you going to apply for a lease?" "I shall have to consult Mrs. Harmon about that," quizzed the governor. "Oho," he said, "you are quite an executive."

When this story was reported to Secretary of State Knox, who also was present, he inquired, "He hasn't seen the upstairs rooms yet, though, has he?"

The new minister is a native of Wheeling, W. Va., and is fifty-three years old. He was appointed assistant attorney general four years ago.

The Republican Whip.

With the authority given in the terms of his appointment, made public in the names of pressmen, the choice of John Willard Dwight, the Republican whip, has been decided on the strenuous order of late. Mr. Dwight is quite new in the position of whip, his first experience being in the extra session last summer, when he was kept busy lining up his party for the Payne tariff bill. He succeeded James E. Watson of In-

ITS OPPONENTS WIN THE FIGHT

County Local Option Bill In Hostile Committee's Hands.

ITS FRIENDS TALK OF GAG RULE

Next Move of the Advocates of the Measure Awaited With Interest.
Bill Presented to Prevent the Custom of Treating—Propositions of Importance Before the Kentucky General Assembly.

BY J. H. STUART.

Frankfort, Ky.—(Special)—After a four days' hard struggle the opponents of the county unit local option bill won their fight to have that measure referred to the committee on religion and morals on Thursday afternoon. The fight came up in this way.

The rules of the senate provide that when a bill has been printed and is read a second time by its title, it shall be referred to an appropriate committee by the president of the senate, unless the committee to which it is referred may be changed by a majority of the senate.

It was voted that Lieutenant Governor Cox, who is president of the senate, is favorable to the bill and would have referred it to some committee that was somewhat favorable to the bill.

Unfortunately he did not do so and the bill was referred to the committee on religion and morals.

Act providing that contributory negligence shall not be a bar to recovery of damages, but may serve to reduce the amount of damage awarded for death or injury.

Act providing for establishment of state Board of Examiners by the secretary of state, at \$2,000 a year salary each, two of them to be Democrats and two Republicans, the salaries to be paid out of the fees charged for the banks for the examinations.

Act providing for an appropriation of \$120,000 for erection of buildings for a tuberculosis sanatorium and \$60,000 annually thereafter to maintain it.

Act fixing the punishment for burglary at life imprisonment or the infliction of the death penalty, in the discretion of the jury.

Act declaring all telephones, telephone lines and public telephone companies to be common carriers, and placing them under the supervision of the state railroad commission.

Act granting pensions to Confederate soldiers.

Act providing that the state treasurer be authorized to pay interest on state bonds.

Act to prohibit the sale of intoxicating liquor on legal holidays as it now profited on Sunday.

Act appropriating \$60,000 for new buildings at state university, \$45,000 for same purpose at each of the two state normal schools and \$25,000 additional annually to state university for running expenses and \$10,000 annually to Eastern Normal school for running expenses.

One of the most unique bills that has ever been presented is one to prohibit the habit of "treating." It provides that if any one shall give or pay for a drink or intoxicating liquor for another he shall be fined \$100 and no less than \$50 for a fine for the keeper or seller of the liquor so sold or used in "treating."

It is intended, probably, too, that the habit of "treating" causes more unnecessary drinking than any other one thing, and if it could be stopped that more than half of the cases of drunkenness would disappear.

It seems very doubtful, however, about the enforcement of such a law, for it could be so easily evaded. If the law should be passed, and one man desired to "treat" another, he could give him the price of the drink and they could walk into the saloon together and each pay for his drink, without any one being the wiser as to where the money came from.

A strong effort is being made at

this session of the legislature to enact a law that will give women the right to vote in state elections and change now appears to favor the passage of such a bill.

It is pointed out that Kentucky stands nearly at the bottom of the states as far as the education of its people is concerned, the per cent of illiteracy being so great as to really be shameful.

The education of Lexington is greatly interested in the bill, and at a public meeting in Frankfort last week,

at which a number of legislators were present, made a most admirable address on the subject. She said that nearly all the progressive states now allow the ballot to women.

She also said that the women of

Kentucky would go to work and reduce the per cent of illiteracy to a minimum in a few years.

The women's clubs all over Kentucky are taking an active interest in urging the passage of such a law and the leading legislators are already pledged to vote for it.

Senator Claude Thomas of Bourbon has introduced the bill in the senate and will use every effort to have it become a law.

Kentucky had a Democrat for governor for about five hours last Wednesday and both branches of the Democratic legislature took a hand in electing him, and he was soon sworn in as the new chief executive to congratulate the acting governor.

The law provides that when both the governor and the lieutenant governor are out of the state, the president pro tem of the senate shall become the acting governor.

Governor Wilson was succeeded by

Gov. Madison, who was compelled to be in Cincinnati for a few hours on important business on Wednesday, so President Pro Tem Cona Linn of Calloway county became the acting governor.

While he was in the executive chair

a man was started to have a trial for the murder of the man indicted for the murder of Governor Goebel who is serving a term in prison. A resolution was prepared to have him introduced in the house and senate, asking the acting governor to pardon Youtsey, but some of the friends of the man urged that it was better to have him remain in prison.

There are three buildings on the grounds, the statehouse proper, the executive building and the red brick building, the latter being a small building called the "old house." The old house is a classic old structure, with big stone columns in front and a wonderful supporting spiral stone stairway. It was erected between 1829 and 1832,

and all the stones in it were quarried from the banks of the Kentucky River and sawed out by hand. Hon. C. John C. Breckinridge, John J. Crittenton and all of Kentucky's great orators and statesmen for the last 80 years have spoken within its walls. Many historical scenes have been looked upon with reverence by nearly everybody in the state from school children up to the oldest inhabitants.

The following are the titles to some of the more important bills that have been introduced during the past week:

Act providing that contributory negligence shall not be a bar to recovery of damages, but may serve to reduce the amount of damage awarded for death or injury.

Act providing for establishment of state Board of Examiners by the secretary of state, at \$2,000 a year salary each, two of them to be Democrats and two Republicans, the salaries to be paid out of the fees charged for the banks for the examinations.

Act providing for an appropriation of \$120,000 for erection of buildings for a tuberculosis sanatorium and \$60,000 annually thereafter to maintain it.

Act fixing the punishment for burglary at life imprisonment or the infliction of the death penalty, in the discretion of the jury.

Act declaring all telephones, telephone lines and public telephone companies to be common carriers, and placing them under the supervision of the state railroad commission.

Act granting pensions to Confederate soldiers.

Act providing that the state treasurer be authorized to pay interest on state bonds.

Act to prohibit the sale of intoxicating liquor on legal holidays as it now profited on Sunday.

Act appropriating \$60,000 for new buildings at state university, \$45,000 for same purpose at each of the two state normal schools and \$25,000 additional annually to state university for running expenses and \$10,000 annually to Eastern Normal school for running expenses.

One of the most unique bills that has ever been presented is one to prohibit the habit of "treating." It provides that if any one shall give or pay for a drink or intoxicating liquor for another he shall be fined \$100 and no less than \$50 for a fine for the keeper or seller of the liquor so sold or used in "treating."

It is intended, probably, too, that the habit of "treating" causes more unnecessary drinking than any other one thing, and if it could be stopped that more than half of the cases of drunkenness would disappear.

The rules further provide that when a bill is reported unfavorably it takes a two-thirds vote of the senate to advance it to its third reading. For that reason the friends of the bill were opposed to giving Linn an opportunity to speak, and tried to fight off its reference till Lieutenant Governor Cox again became the presiding officer of the senate.

The senate is considered to be about evenly divided if the bill ever came to a direct vote, with possibly a slight majority in favor of the measure, though there are two senators who have voted with the friends of the bill for the past week who will vote against it on final passage and the same number who have voted with the opponents of the bill who will vote for the bill on final passage.

The friends of the bill claim that some of the extraordinary parliamentary rulings were made in order to reach the point where the bill was referred on Thursday, while the opponents of the bill say they were only following a long line of precedents in insisting that the bill should go to the religion and morals committee.

The friends of the bill made a desperate fight to hold the fort till Cox returned, and some rather caustic things were claimed about the gag rules of the senate that had been adopted, so they said, for the sole purpose of defeating the county unit bill.

Just what the next move of the friends of local option will be is not known, but it is believed they have a card up their sleeves that will be played sometime this week, but they are keeping very quiet about their plans. Somebody still the rumors that the bill will be introduced again and will be passed, and predicted that it would play a part in having Governor Cox go to Cincinnati last Wednesday, thus taking Conn Linn out of the chair for that day, but it is stated here on undoubted authority that he had nothing whatever to do with Cox's trip to Ohio.

The present legislature is expected to take some action relative to disposing of the old state house and the square of ground upon which the buildings stand, but no one seems to know exactly what will become of the historic old structure. The first suggestion made two years ago was to move the building to a state historical museum and place it in charge of the State Historical Society, and it met with much popular favor at that time, as the great majority of the people want the old building preserved because so many hallowed memories of Kentucky's great men since 1829 are associated with it.

The old building has been put on foot to convert it into a state normal and law school and a bill has been introduced in the house looking to that end. Senator Burnam of Madison has introduced a bill authorizing the sale of the buildings and grounds to the highest bidder, and a bill has been introduced in the senate to do the same.

A man was started to have a trial for the murder of the man indicted for the murder of Governor Goebel who is serving a term in prison. A resolution was prepared to have him introduced in the house and senate, asking the acting governor to pardon Youtsey, but some of the friends of the man urged that it was better to have him remain in prison.

Mr. Haddock Says Do Not Blame Farmers For High Prices They are Only Lifting Mortgages.

Conditions are certainly getting serious with the wage workers when he can not afford to eat meat. When this is one of the concerns for which they are working can all go to ride in \$10,000 auto, trade in car, etc. To pay for it. Pay at 75 per cent. Don't blame the farmer he is only getting just compensation for his labor and investment. His bank account is not growing. He is busy lifting the mortgages that were caused to be placed on him in the past by the tobacco and meat trusts. This boycott on provisions will only effect the producer and will soon have him joining a society to go bar footed. Raise the wages, and the wage workers can eat meat at the present price.

FOUNDRY

May Have New Head Quarters-Ice Plant Equipment Being Moved.

A. L. Fort, manager of the Cloverport Ice plant is moving the machinery to his new home in Tennessee this week. In all probability the Clouerport Foundry will move to the ice plant building and besides doing their usual work, will manufacture or handle ice.

To give away rent for, any less than living rates is as fatal newspaper as for a landlord to fail less free.—Exchange.

A Bill The Paper Must Pay

Every line in a newspaper costs proprietor something. It is for benefit of the individual it should pay for. If the grocer were asked contribute groceries to one abundably able types for whom he would refuse. The proprietors of a newspaper pay for the free advertising. If beneficial does not, and yet it is of the hardest things to be learned, many that a newspaper has space to rent and must receive. To give away rent for, any less than living rates is as fatal newspaper as for a landlord to fail less free.—Exchange.

Change in Publication Day

The Hawesville Clarion has changed its publication day from Wednesday Saturday of each week. The reason for change, says the Clarion, is its readers preferred the paper Saturday.—Cannelton Enquirer.

BANK OF CLOVERPORT
Incorporated 1903

Capital, Surplus and Undivided Profits \$22,600.00

We wish all a Happy and Prosperous New Year, and desire to thank those who have heretofore contributed their patronage and influence. We have made our resolution to double our business during 1910, and looking forward to that mark, we earnestly solicit your account, whether it be large or small we will appreciate and give it our very best attention. It is better to keep adding to a small account than to be continually reducing a small one. If you are not already a customer, we invite your attention to our board of directors composed of successful business men who direct the affairs of this bank. Fully insured, interest paid on time deposits. If our methods please you, tell others, if not, tell us, and we will see to it, the fault, if ours, will be corrected.
